

I RUINED YOUR FACE

Once upon a time you existed, I don't care.
So, you are here, I'd rather be there.
I wanna spit on you and, mess up your hair.

I don't want you near, I need you gone.
I won't wish you well, I'll cause you harm.

I ruined your face, I ruined your face.
I hit it with a bat and, blood went all over the place.
I ruined your face, I ruined your face.
I beat it with a bomb and, blew up your brains.
I ruined your face, I ruined your face.

Oh no, here comes that thing
that makes that noise that I want turned off
that's on the same fucking head that I want fucking blown off.

I hate your head, and I scream that loud
Ignoring you, and it makes me proud
You used to have such pretty features
Now you're just a grotesque creature

I ruined your face, I ruined your face.
I hit it with a bat, and blood went all over the place.
I ruined your face, I ruined your face.
I beat it with a bomb and blew up your brains.
I ruined your face, I ruined your face.
I ruined your face, I ruined your face.
I ruined your face, I ruined your face.
