9-16-11 Judgement.pdf (71.1 KB)

Dear Mr. Hupy:

Your inquiry was forwarded to me for response by Ms. Wendel. This order was signed by the Honorable Brett Buckley, Presiding Judge, Thurston County District Court. Judge Buckley served as the pro tem judge for this matter because this case involved the Superior Court Judges' Association thus the Thurston County Superior Court judges recused for conflict of interest as they are members of the association.

Sincerely,

Marti Maxwell, Administrator
Superior Court of Washington
For Thurston County
2000 Lakeridge Drive SW
Olympia, WA 98502

Dear Mr. Hupy:

Consent to Judge Buckley is not required under Administrative Rule (AR)6(b). Court files are not subject to the Public Records Act but are available by visiting the Clerk's Office or viewing the file(s) on line at the Thurston County Clerk's website. There are some types of files and information that cannot be released to the public by statute. The Clerk's Office can assist you with your request for copies of court documents. Our court's jurisdiction is determined by legal principals, not how we phrase the name of the court.

Ms. Maxwell,

Your statements which reference legal documents/filings which are required to be in the permanent public case record, Judicial Recusal(s), per RCW 2.08.180 the required oath of office, and the signed acknowledgement of such agreement between the litigants (as required to be by the actual parties of the action not simply the lawyer) accepting this person, TCDC Judge Brett Buckley. In the words of a part president "trust, but verify" please produce documents to support your allegations.

I requested this required documentation from the Office of TCSC Clerk Betty Gould and as of this date still waiting for her production, but as you seem to have access to documents which have been concealed (unintentional or otherwise) or are perhaps in a second and/or secret case file from the public record consider this a request for production of documents you relied on to make the statements in your email response to me as well as documents I mention above. Please state the authority the TCSC Administration relied on in maintaining a "non public" case file for TCSC cause number 11-2-01185-0.

On review of you earlier email I do have one more request; I see you signed your email "....Superior Court of Washington For Thurston County..." I cannot seem to find any mention of a single unified Superior Court of Washington I only find individual County Superior Courts, has there been some changes I have been unable to find concerning this apparent change in Judicial structure of the Superior Courts such as Constitutional amendments, RCW, Court Rules, please provide me documents which support this.

Christopher J. Hupy

Subject: The email you shared with me

Dear Annette and other recipients on the list.

Mr. Hupy, as his documentation shows, was a voluntary client in my program secondary to a Family Court Evaluation. He was voluntary in that, as he stated, he had two other programs, closer to him home, to which he could go. He never complained about being in the program and never requested to transfer to another program, even when I offered it to him.

He and another individual have been campaigning to destroy me and my business. They could be working together in that their actions appear to be closely coordinated, but that may not be the case.

The other individual has never met me. However he has openly admitted on his website that he is out to shut down "the domestic violence industry" in this state, specifically Barry Glatt, a former treatment provider who has been driven out of the business, and Dr. Dale Todd, of Phoenix Counseling.

Mr. Hupy has misrepresented the number of complaints against me, in that they are all from him. One of his complaints has already been dismissed.

I will not make the mistake he did of talking publicly about an ongoing investigation. However I will note that most of the complaints are redundant and really all trace back to a single conversation which he didn't like. The rest of the complaints derive directly or indirectly from that one incident and thus there is really only one complaint.

I would also note that his second email makes it clear that he is misusing the complaint process by using the number of complaints and the dates of those complaints to prevent me from being recertified above and beyond the findings of the investigations.

I am asking the recipients of this information to take into account that we have a complaint process in this state for a good reason. However Mr. Hupy is deliberately misusing the complaint process to cause harm regardless of the outcome of the investigations, over what was really a difference of opinion about a single comment. From this it has exploded by orders of magnitude into me being a threat to the public.

I believe that this sort of campaign is a misuse of the system and I would ask the recipients of this information to let the complaint process work as it's intended and not let this become a matter of being "tried in the press". Please base your opinions about me on the last 28 years experience you have had with me in this profession, and

not on a single, still-under-investigation complaint by a single unhappy client about a single conversation.

Thank you for your time and patience. I apologize that this matter has interfered with your busy schedules.
