Good to hear from you, Carrie. I hope things are going well.

No, this is not a legitimate judges' association. Jeff Even has been dealing with this issue and I've included him on this email in case he can provide more information.

In addition, Jeff is assigned to AOC, so he might be able to help you find the right contact person over there.

Let me know if there is anything else we can do to help,

Becca Glasgow
Deputy Solicitor General
Washington Attorney General's Office
PO Box 40100
Olympia, WA 98504-0100
360-664-3027

Hi Becca and Michael-I am hoping you can help me as I am not having any luck getting AOC to contact me. We need to start educating (generally informing them about the law and the statutory filing logistics) judges and clerks about the new WA False Claims Act and the fact that these cases are filed under seal. In trying to reach out to the Superior Court judges' association I came across this website which appears to have a bit of fodder about who the "real" association is. Do you happen to know whether this group is legitimate or not? Thought you might have heard things while a clerk at the SC.

Superior Court Judges Association

[Contact us](#) [Upcoming Events Calendar](#) [Welcome to the SCJA](#)

Welcome to the SCJA

The SCJA is short for Superior Court Judges Association a Washington State licensed business, we are in no way affiliated with or a agency of the State of Washington, we provide fee based and not fee based Judicial accountability consulting, but here all you will find is plenty of free citizen focused resources all designed to enlighten the average person concerning the activities of our Judiciary.

Given the requirement *we the people* have for information about what our government is doing and how it conducts the business of the people this resource is born. The foundation of our republic is based on the principle that our government is for the people, of the people, and beholden to the people who created it not the other way around.

The last couple decades have brought enormous change to one branch of our government that has gone mostly unnoticed and has largely escaped public scrutiny, the Judiciary. Formation of many sub-groups from the [Board of Judicial Administration](#) (BJA), the [Administrative Office of the Courts](#) (AOC), to the re-animation of long since dormant associations [District Municipal Court Judges](#), and [The Association of the Superior Court Judges of the State of Washington](#).

The most powerful tool available to the average citizen is knowledge, simply put one cannot control abuse of power if that abuse is shielded from inspection, what information posted here should be considered bread crumbs because the Supreme Court in our state has decided, under the color of law, that they are somehow immune and exempt from the single most powerful tool created in the last 50 years by the people- The Washington State Public Records Act (codified as [RCW Title 42.56](#)).

RCW 42.56.030 *The people of this state do not yield their sovereignty to the agencies that serve them. The people, in delegating authority, do not give their public servants the right to decide what is good for the people to know and what is not good for them to know. The people insist on remaining informed so that they may maintain control over the instruments that they have created.* This chapter shall be liberally construed and its exemptions narrowly construed to promote this public policy and to assure that the public interest will be fully protected. In the event of conflict between the provisions of this chapter and any other act, the provisions of this chapter shall govern.

Nothing contained on this website nor any comments are intended to be legal advise and should not be confused for such, the legal arena is a complex and often confusing place, will a lawyer help you or become part of the problem for your specific case I can't answer that question. Knowledge is power and if you have to interact with the legal system learn everything you can, it is cheaper online than in front of a black robe. If you need legal help for your case please seek those professionals, usually a phone number for one can be found on the back of most transit buses.

Many mistakenly believe our Justice system is Adversarial in design and construction between only the litigating parties, do not fool yourself because everyone in the Courtroom is your adversary and deserves to be treated as such, including all Judicial Officers (Lawyers are also Judicial Officers in Washington State) present.

Protection of your rights is your responsibility, never forget. No Judge or Lawyer should ever be relied on to protect you and your family from abuse or deprivation of rights, question this statement just ask any father who has been through the Family Law system in our State.

Whether your visit here today is based on being thrown into a unfamiliar and frightening family law courtroom, a legal researcher, a member of the Judiciary, or simply have a passing interest in our Judicial branch of government please accept my warm and sincere welcome and comments are always appreciated.

Chris Hupy, Principal
Superior Court Judges Association

Welcome to the site, over the next few days thousands of additional pages of supporting documentation will be added, and new user features will be implemented.

Enjoy

Mr. Hupy. Thank you for having the courage to stand up to these crooks. I don't know who said it but its along the lines of, the more you are disliked by a specific group of people means you have probably found something they don't want exposed. rats hate it when the lights come on. let me know if you need any financial assistance to continue to expose these folks. Dori Monson on 97.3 loves this type of stuff.
